What’s New

SPRINGSTEP™ IV PLUS IMPROVED

The easy subfloor with enhanced durability. The_nominal 3” x 3” pre-fabricated panels, with tongue and grooves, rest on a “laid” high-density foam suspension form. Springstep™ IV Plus offers excellent energy absorption and resilience. Its tongue and groove system allows for easy assembly and disassembly (See page 19).

PROCLEAN™ DO-RINSE NEW

This product delivers protection and one-step easy use. Disinfectant cleaner** virucide, fungicide, mildewstat & odor counteractant. Killing bacteria, fungus, algae, and viruses (e.g., effective against hepatitis-B-virus) and controls mildew. No rinsing required when applied with mop. Kids Covid-19. (See page 24).

STAGESTEP® offers an array of dance floor surfaces and floating wood subfloor options to meet your circumstances and needs.

For many, it may seem like an overwhelming choice of products and options that is off-putting. It doesn’t need to be.

Stagestep® is here to guide you to your perfect flooring system suitable for how and where you dance. Answer a few questions and our representatives will put together a written proposal which will include everything you need.

We will customize materials to fit your space and we will provide installation and maintenance guides, online instructions, and technical support via the phone and on our website.

Creating A Dance Studio Floor System

**VAPOR BARRIER**
A vapor barrier is the first step. It is always needed for installation over concrete or sub-grade floors that do not have a vapor barrier already installed. Vapor barriers prevent moisture from escaping the concrete and being absorbed by the wood subfloor, potentially swelling and warping the wood. (See page 23.)

**FLOATING WOOD SUBFLOOR**
A floating wood subfloor is one of the most important elements. It provides shock absorption, resilience and lateral foot support. Wood is totally suspended off the slab. (See pages 15-19.)

**FLOOR SURFACES**
Consider budget, types of dance activity, color, wear characteristics and texture. Avoid VCT, laminate and all non-dance floor certified products.

- Rollout flooring: All rollout floors, typically referred to as marley (vinyl) floors, are available in a variety of material configurations and a multitude of colors. Different flooring surfaces are best suited to specific disciplines. Some flooring can be used of all types of dance. (See pages 8-13.)
- Encore: A click-and-lock transportable hardwood floor with a factory finish and integrated sprung floor. No adhesive, screws or nails required. (See page 14.)
- Hardwood: For a permanent installation, a tongue-and-groove hardwood surface available in a variety of woods with a SpringFlex floating wood subfloor. (See pages 16-17.)

**ADHESIVES & TAPES**
There are five options for affixing vinyl flooring to your subfloor. Choosing the proper product for your installation depends on whether you are permanently, semi-permanently or temporarily installing your floor. (See page 22-23.)

**TRANSITION RAMP**
ADA safety standards require a ramp for access without any blockage for surfaces that rise 1 1/2” above the ground. Ramps are lightweight and can easily support more than 1,000 lbs. (See page 23.)

**VENTED WALL BASE**
Subfloors are designed, constructed and installed to leave a 1/2” gap between the floating subfloor and the wall to allow for air circulation. A vented wall base is designed to cover this space. (See page 23.)

**MAINTENANCE PRODUCTS**
Stagestep® offers a variety of maintenance products and finishes to help your floor stay clean and sanitized. (See page 24-25.)

---

Our Best-Selling Duo

**TIMESTEP™**
The ultimate multi-purpose floor ideally suited for all movement activity including tap, hip-hop, ballet, modern, character, ballroom, jazz and flamenco. Heavy duty portable and permanent flooring for stage, touring and studio. Can handle heavy scenery and props. Surface can be treated for differing degrees of non-slip. (See pages 8-9.)

**SPRINGSTEP™ IV PLUS IMPROVED**
The professional standard for floating wood resilient permanent and semi-permanent subfloors over concrete slabs and other hard surfaces. Resilient and energy absorbent. Safety and performance at a great price.

The nominal 2’ x 2’ pre-fabricated panels, with tongue and groove connection system, rest on “L” shaped high density foam suspension forms. Springstep™ IV Plus offers excellent energy absorption and resilience. Its tongue and groove system allows for easy assembly.

The 9-4 lb panels can be installed in hours instead of days. No screws, No staples. No nails. No patching. No sanding. It is 1/4 the work with only rotary saw needed to cut panels to fit the space and stagger the seams. Easy to disassemble, move to a new location, and re-install. (See page 19.)

---

Cushion-Backed Dance Floors

Stagestep® offers three (Dancetop™ Plus, Woodstep™ Plus, and Woodstep™ Ultra) rollout floors that have heavy-duty wear surfaces and high-density foam underlayments. They can be installed directly over sealed concrete and have very good absorbency, excellent performance, but reduce the level of sound generated, which means they are not recommended for tap. They are rated ideal for residual vibration and are excellent for multi-purpose floors. (See pages 12-13.)

**FLOATING WOOD SUBFLOORS**
Stagestep® offers multiple floating wood subfloors (Springstep™ II, III, IV Plus, V, SpringFlex™) with customized variations to absorb, dissipate, and provide safe, resilient energy return. (See pages 17-18.)

All floor surfaces without foam backing provide no relief from a hard concrete slab. This includes wood floors placed directly on wood joists. Check the adjacent flooring charts for relative characteristics and the ideal combination for your movement activity.

### Timestep™ Collection

The ultimate multi-purpose floor ideally suited for all movement activity including tap, hip-hop, ballet, modern, character, ballet, and flamenco. Heavy-duty, portable and permanent flooring for stage, touring, and studio. Can handle heavy scenery and props. Surface can be treated for differing degrees of non-slip.

#### Super Timestep™

Ideal for ballet, pointe work, contemporary, jazz and all dance forms requiring a superior non-slip, textured surface. Durable wear layer makes for an excellent multi-purpose floor with a fiberglass reinforced lining for lie-flat quality. Energy transfer layer allows for tap and percussive dance. Flexible for easy roll-out and roll-up like a standard marley. Installed permanently with adhesive or temporarily with tape, or ReUseIt™.

#### Timestep™

The ultimate multi-purpose floor ideally suited for all movement activity including tap, hip-hop, ballet, modern, character, ballet, and flamenco. Made of 2mm (.08") thick solid homogeneous PVC. Heavy-duty flooring for stage, touring and studio. Can handle heavy scenery and props. Surface can be treated for differing degrees of non-slip. Installed permanently with adhesive or temporarily with tape, or ReUseIt™.

#### Timestep™ T

Made of same material as Timestep™ (solid PVC) but 25% thinner and lighter for touring and temporary installation at an economical cost. Also suited for all movement activity including tap, hip-hop, ballet, modern, character, ballet, and flamenco. Made of 2mm (.08") thick solid homogeneous PVC. Heavy-duty flooring for stage, touring and studio. Can handle heavy scenery and props. Surface can be treated for differing degrees of non-slip. Installed permanently with adhesive or temporarily with tape, or ReUseIt™.

Bravo™ Collection

Reversible, lightweight, portable marley flooring, perfect for stage, studio and touring. A fiberglass lining improves stability and offers better lie-flat on subfloor. Superior work surface for jazz, modern, ballet and other movement activities. Only Super Bravo Pro™ is recommended for tap. Bravo™ Classic is lighter and less expensive.

</table>

Slightly textured, heavy-duty surface. Exceptionally realistic wood design combines form, function, and ease of installation. Resists wear and tear. Great for dance and multi-purpose activities.

Recommended for ballet, jazz, modern dance and virtually all movement activities. Surface is made of protective coating which is slightly textured. Not recommended for tap due to cushion-backing which mutes sound. Can be installed directly on a concrete slab without a floating subfloor.

### WOODSTEP™ PLUS

| Price | $56 per sq. yd. | $6.22 per sq. ft. ($66.96 per sq. meter) for custom-cut lengths to the nearest ft. |
|-------|-----------------|-----------------|---------------------------------------------------------------|
| Thickness | .24” (6.1 mm) | | |
| Width | 6.56” (2 in) | | |
| Weight | 7.56 lbs. per sq. yd. (4.1 kg per sq. meter) | | |
| Full Roll Length | 65” (20 ft) | | |
| Full Roll Price | $2,387.64 (Price Includes 10% Discount) | | |
| Full Roll Weight | 359 lbs (164 kg) | | |
| Full Roll Length | 430 sf/47.38 sq (40 m2) | | |
| Material | Maple | | |
| Colors | 5-layer laminate | Fiberglass-lined | Clear PVC wear layer | |
| Life Expectancy | Up to 18 years | | |
| Guarantee | 1 year against wear | | |

Has all the qualities of Plus with extra shock absorption provided by a dual-density foam backing. Recommended for ballet, jazz, modern, not recommended for tap due to cushion-backing which mutes sound. Can be installed directly on a concrete slab without a floating subfloor.

### WOODSTEP™ ULTRA

| Price | $65 per sq. yd. | $7.22 per sq. ft. ($77.74 per sq. meter) for custom-cut lengths to the nearest ft. |

| Material | Maple | | |
| Colors | 5-layer laminate | Fiberglass-lined | Clear PVC wear layer | |
| Life Expectancy | Up to 18 years | | |
| Guarantee | 1 year against wear | | |

### Specialty Collection

#### Dancesteptm Plus Flooring

Dancesteptm Plus is a dual-density foam-backed flooring designed to be installed directly on a properly sealed concrete slab. Dual-density foam gives increased energy absorption. Textured wear layer makes for a non-slip surface. Great for all styles of dance except tap (due to sound reduction).

### Quietstep™ Flooring

Quietstep™, the performance floor for ballet can also be used for contemporary and jazz. Cushion-backed flooring reduces sound. Non-slip surface ideal for pointe work. Not recommended for tap (sound muting). Quietstep is ideal for ballet.

### At A Glance

- **Woodstep™** has the look of real wood
- **Easy install**
- **Great look-flat**
- **Non-slip**
- **Portable**

**Encore™ Wood Flooring Collection**

Exceptional real hardwood design combines form and function. Encore™ is the revolutionary “click-and-lock” transportable hardwood floor with a factory finish and an integrated sprung subfloor. Recommended for virtually all activities including tap, jazz, modern, ballet, and multi-purpose use. Encore™ Elite uses maple hardwood for a harder, more durable surface. FloorShield™ II is recommended for ballet and for easier cleaning of tap shoe residue. (See page 28.)

**At A Glance**

- State-of-the-art basket weave system
- 20-year life expectancy
- 1-year guarantee

Our Customers Say It Best

“When we built Starwest Studios in Hollywood, a state of the art broadcast dance studio, before all the lights, cameras and action, we had to lay the foundation. That is when we decided to install the best, a 3800 square foot Stagestep® sprung wood dance floor. Our choreographers expect only the best! Starwest Studios has the largest sprung wood floor in Los Angeles, including a marley sprung floor also from Stagestep® with a white Cyc for filming dance.”

Sammy Oriti, Creative Director
Starwest Studios

Prices do not include shipping & handling. Please contact Stagestep® for shipping & handling quotes.

Springstep™ II & III

Multi-purpose floating wood subfloor for all dance activities. Select resilience (spring) and absorbency suitable for what you do. The only custom transportable subfloor on the market.

Springstep™ II—Build It Yourself

Resilient floating wood subfloor that comes 2 3/4" (89.65 mm) or 1 1/2" (38.1 mm) off the slab. Will amplify sound levels in the room. Ideal for all dance styles. Springstep™ II consists of 2 layers of 1/2" (12.70 mm) underlayment grade plywood resting on two-inch resilient foam cubes (100 cubes per 4' x 8') or 3" x 3" x 3/4" nominal high foam blocks (52 per 4' x 8'). Stagestep® provides only the foam underlayment, plus all the instructions and phone support you need. Estimated Costs: Due to current fluctuating market conditions cost of plywood cannot be estimated. Check your local supplier.

Springstep™ III—The Ballroom Alternative

The most absorbent and least resilient of the subfloors, comes 1 1/2" (38.10 mm) off the slab. Reduces sound levels and works exceedingly well for ballroom dance. Springstep™ III consists of 2 layers of 1/2" (12.70 mm) ply resting on 1/2" (12.70 mm) cross-link cell foam sheeting covering the entire slab. Specifications are the same as Springstep II except for 1/2" (12.70 mm) foam sheeting. Stagestep® provides only the foam underlayment.

Estimated Costs: Due to current fluctuating market conditions cost of plywood cannot be estimated. Check your local supplier.

For detailed illustrations and installation instructions, visit stagestep.com/subfloor-systems/#springstep

**Telegraphing does not affect performance or wear. It is not a defect. Most floating subfloors will telegraph seams from below.**

Micron Wipes
Stagestep’s Micron Wipes picks up aluminum compound residue deposited by most tap shoes. The thinner Micron microfilm traps more dirt, dust, liquid, and bacteria than conventional microfiber.

- 5-10 times thinner than microfiber
- Last-free and non-woven, no fraying
- Absorbs 5 times its weight in liquids
- Washable & reusable
- Fast drying

Pack of 10 Wipes (15 3/4" x 15 3/4" ea)............................................... $25

TapShield®
A revolutionary topical solution.
Helps eliminate aluminum compound tap residue from all floors. TapShield® is applied directly on to taps. Follow directions provided. One application treats one pair of shoes.

TapShield® Single Use Size
(12) Single Use Application....................................................... $48

TapShield® Studio Size Bottle
4 oz. Bottle............................................................................... $55/bottle
24 applications per 4 oz. bottle. ($2.29 per application) Case (12–4 oz. bottles)......................................................... $468
288 applications per case. ($1.63 per application)

Maintenance
ProClean™
Super-concentrated industrial-strength floor detergent/degreaser that will not harm your floor or floor finish.

Single (1 gallon)........................................................................ $35
Case of Four (4 gallons).............................................................. $122
Pail (5 gallons)........................................................................... $140

ProClean™ NS
Concentrated floor cleaner after initial application(s) delivers one-step non-slip treatment to vinyl floors without harming surface.

Single (1 gallon)........................................................................ $45
Case of Four (4 gal)................................................................... $144
Pail (5 gallons)........................................................................... $180

ProClean™ D No-Rinse
New Disinfectant cleaner *vinylite*, Tungside, minkewast & odor counteractant. Killing bacteria, fungus, algae, and viruses (e.g. effective against hepatitis-B-virus) and controls mildew. No rinsing when applied with mop. Kills Covid-19.

Single (1 gallon)........................................................................ $75
Case of Four (4 gallons).............................................................. $240

ProClean™ Ultra
Super deep clean, to be used twice a year with a floor machine with a green pad at low RPM.

Single (1 gallon)........................................................................ $50
Case of Four (4 gallons).............................................................. $160

Slip NoMor™
Our “liquid rosin” is a super-concentrated formula which makes a economical non-slip solution which treats all floor surfaces—wood, tile, vinyl, and linoleum. The perfect substitute for rosin (which is not recommended for vinyl floors ever). Will not damage any surface.

Single (1 gallon)........................................................................ $50
Case of Four (4 gallons).............................................................. $160
Pail (5 gallons)........................................................................... $200

SimplyGone™
Stain remover and spot cleaner for wood and vinyl surfaces. Safely removes the following stains: food, beverages, grease, oil, most shoe polish, heavy grime, and scuff marks. Easy to use. Just apply, agitate and blot up. It is non-flammable and non-toxic and has an unlimited shelf life. It has little or no odour.

Single (1 gallon)........................................................................ $60
Case of Four (4 gallons).............................................................. $192

WipeOut™ Plus
The eco-friendly, easy-to-use product that is ideal for removing dye and scuff marks. Its improved formula penetrates, loosens and dissolves many unwanted stains from all vinyl and non-porous surfaces. It is the only solvent recommended for use on Stagestep® vinyl dance flooring.

6.8 oz. Bottle........................................................................... $25
Buy two—get the third at 50% off.............................................. $60.50

WINTER NOTIFICATION
Slip NoMor™, ProClean™ NS and SimplyGone™ products shipping between December 15th to March 15th, or whenever freezing weather is forecast, require a $5 surcharge for an added heat pack. Plus third day shipping cost if necessary.
Prices are in USD and are subject to change without notice. For pricing in other currencies, please call (215) 636-9000 or email us at sales@stagestep.com. Call the U.S. (800) 523-0960 or Canada (866) 491-9019 for earliest shipment date. Stagestep® is not responsible for delays in shipping & handling once product has left our warehouse.

For items in stock, shipment is typically made within 24–72 hours, excluding weekends and holidays. For special orders including wood flooring, allow 3–6 weeks. Call Stagestep® for earliest shipment date.

Shipping & Handling
Flooring and subfloors will be shipped FOB Philadelphia unless otherwise arranged.

All other products will be shipped prepaid UPS or FedEx unless shipped with flooring via interstate trucking. All freight prepaid.

For shipments outside the contiguous United States, please call for shipping & handling cost.

Stagestep® is not responsible for delays in shipping & handling once product has left our warehouse.

To order floorcare products or installation products, shop 24 hours a day online or call (800) 523-0960, during business hours.

Shipping & handling for most online purchases are free in the 48 contiguous United States. We charge for shipping & handling for online orders to states outside of the contiguous United States. Call for shipping cost for other locations.

Terms & Payment
Purchase orders accepted from city, state, and federal institutions and public school systems. Net 30 days. All other orders must be prepaid. We accept credit cards (MasterCard, Visa, Discover, and American Express), checks, and money orders for U.S. and Canadian currency. We can also provide current exchange rate for foreign currency.

Please note that truckers will not make inside deliveries. It is your responsibility to transport flooring from the truck into your facility.

All information and pricing supersedes materials published prior to May 2021. All prices and product specifications subject to change.

Damaged Shipment and Claims
Any non-concealed damage to your shipment must be noted on shipping & handling documents at time of receipt. Photo documentation should be sent to Stagestep® to facilitate all claims. If you experience any problem with a Stagestep® product, you must notify us within 72 hours of receipt to validate, exchange, credit, or file insurance claim. Installation of flooring denotes acceptance.

Our Customers Say It Best

*We love Stagestep® floors and have used them for years. They are extremely durable and easy to clean. Tens of thousands of dancers dance on our Stagestep® floors each week. These versatile floors are perfect for the extreme punishment we give them.*

Gary Pate
Starpower National Talent Competition
